# Uncover the **TOP A-RATED STOCKS** and the **MOST DESTRUCTIVE D-RATED** **STOCKS** on the Market Right Now

There are literally thousands of stocks you could buy today. Hundreds could triple your money. Hundreds more are set to destroy your portfolio.

To uncover the true winners and losers, TheStreet's award-winning proprietary stock algorithm, *Quant Ratings*, analyzes thousands of stocks and labels them with an easy-to-understand A+ to F rating.

And for a limited time, TheStreet is giving you access to our latest *Quant Ratings* analysis completely FREE: You have the opportunity to download TheStreet's just-released report, ***Divided Dozen: 6 Buys and 6 Sells for the Market Right Now!***

The truth is, of the 12 most actively traded, most popular stocks on the market today ... six are screaming buys and six are detrimental to your wealth.

Do you understand what this means? If you own any of these stocks—even just one—you have a 50% chance of losing it all.

Put the odds back in your favor.

## ABOUT QUANT RATINGS

TheStreet's award-winning stock ratings service, **Quant Ratings**, evaluates more than 4,300 stocks each day. Using 32 different data factors, it pinpoints the best and worst stocks on the market. Use it to evaluate every stock you own—or were ever thinking of buying—and you'll raise your investment success to a whole new level!

With TheStreet's ***Divided Dozen: 6 Buys and 6 Sells for the Market Right Now!***, you'll discover ...

- **A cup of Joe is a great start to the day.** Learn which highly caffeinated company has improved earnings per share by nearly 28% in the most recent quarter—a consistent pattern of positive earnings growth for two straight years!
- **Credit cards are back in business.** See which financial services company has a well-run management team and continues to benefit from an endless paper-plastic secular growth story—it's producing growth rates better than 90% of all the stocks we rate.
- **Not all that glitters is gold.** Uncover which highly touted gold mining company has lost its luster with earnings expected to plunge 53% next year. If you own any shares, you'll be paying a very, very high price.
- **This isn't music to your ears.** Discover which Internet music provider saw its earnings plummet 33% —and why it's a trend expected to continue for the foreseeable future.
